MERN Stack Developer with a strong foundation in MongoDB, Express.js, React.js, and Node.js, along with good knowledge of JavaScript and modern web development. Completed a Frontend Development Internship, gaining practical exposure to UI development and website development. Built academic and personal projects to strengthen frontend and full-stack development skills. Looking for an opportunity to contribute to real-world projects, apply my technical skills, and grow as a professional Full Stack Developer.

SKILLS

- ❖ **Frontend** : HTML, CSS, React.Js, Tailwind CSS
- ❖ **Backend** : Node.Js, Express.Js
- ❖ **Database** : MongoDB
- ❖ **Languages**: C, Javascript
- ❖ **Tools**: Git, GitHub, VS code, Netlify

EXPERIENCES

- ❖ **Frontend Development Intern | LxGio India Pvt Ltd** (02/2026 – 05/2026)
 - Developed responsive and user-friendly web interfaces using HTML, CSS, Bootstrap, and WordPress.
 - Created and customized modern website layouts with clean UI and mobile-responsive design.
 - Worked on frontend development tasks, UI improvements, and website styling practices.
 - Assisted in building visually appealing web pages with proper structure and responsive elements.
 - Gained hands-on experience in frontend development, responsive web design, and user experience optimization.
 - Participated in supervised projects, learning assignments, and practical frontend development exercises.
 - Improved knowledge of website design principles, layout structuring, and modern web development practices.

PROJECTS

- **Business Quotation App | HTML, CSS, JavaScript, Vite, jsPDF** [\[LIVE DEMO\]](#)
 - Developed a real-world business quotation web application to create professional quotations for products and services.
 - Implemented dynamic quotation item management with automatic price and total calculations based on quantity and charges.
 - Integrated Local Storage to persist quotation data directly in the browser for convenient local access.
 - Integrated jsPDF and jsPDF-AutoTable to generate structured, professional quotation documents in PDF format.
 - Implemented one-click PDF generation and download, including quotation details, itemized pricing, total amount, company information, and signature.
 - Designed a responsive and user-friendly interface using HTML5 and CSS3, with Vite for modern frontend development.
- **FoodieHub – Food Delivery Web Application | React.js, Tailwind CSS** [\[Live Demo\]](#)
 - Developed a food delivery web application using React.js and Vite with a modern, user-friendly interface.
 - Built reusable React components for food items, menu sections, navigation, and other UI elements.
 - Implemented menu category selection to allow users to browse and explore different food items.
 - Developed an interactive Cart page for managing selected food items and displaying order details.
 - Created a clean and interactive Login UI and integrated React state management for user interactions.
